

System Manual For Tomb of Khaud'ghur:

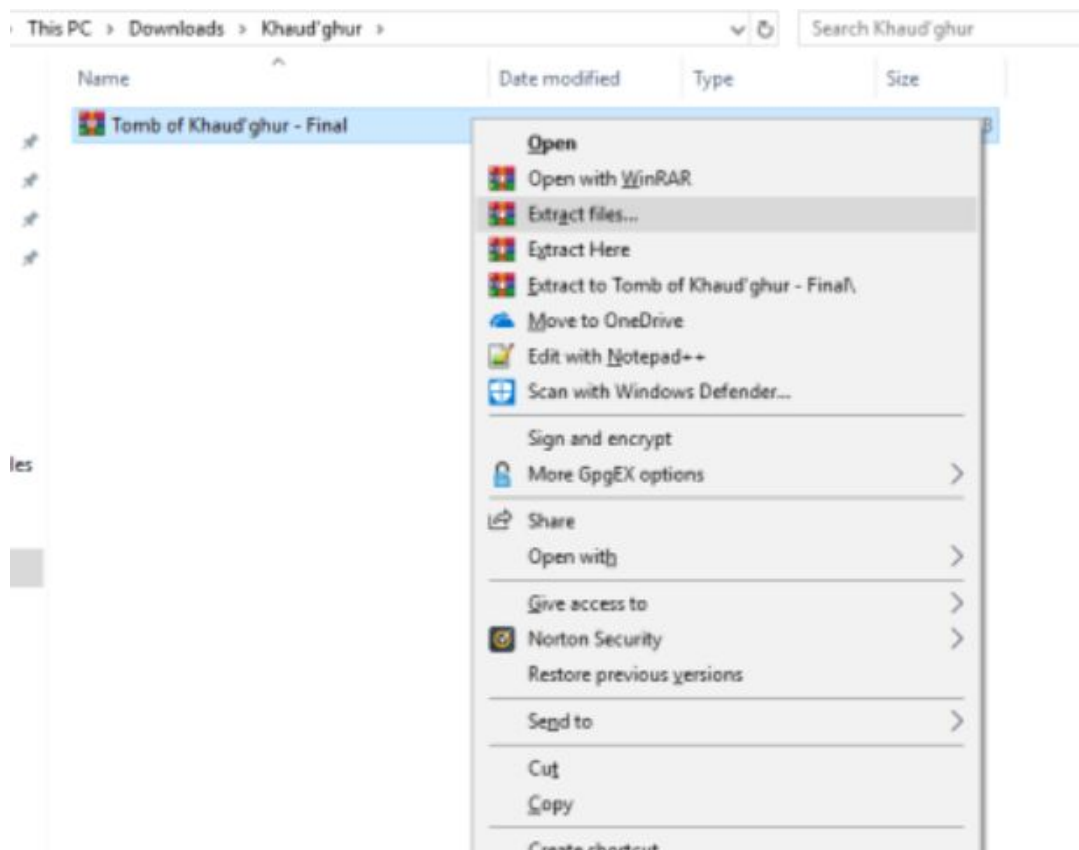

Hardware and Software Requirements: As of now, Tomb of Khaud'ghur is only accessible through **Windows 7, 8, 10, Apple and Linux** however, it cannot be installed as a phone application.

Installation: To access the download, please click this link (<https://drive.google.com/drive/folders/1ITQQg86Rh-Si4A1uS7dKAvpTfBsJAl5?usp=sharing>), it will direct you to our public google drive folder. From there simply download the game file.

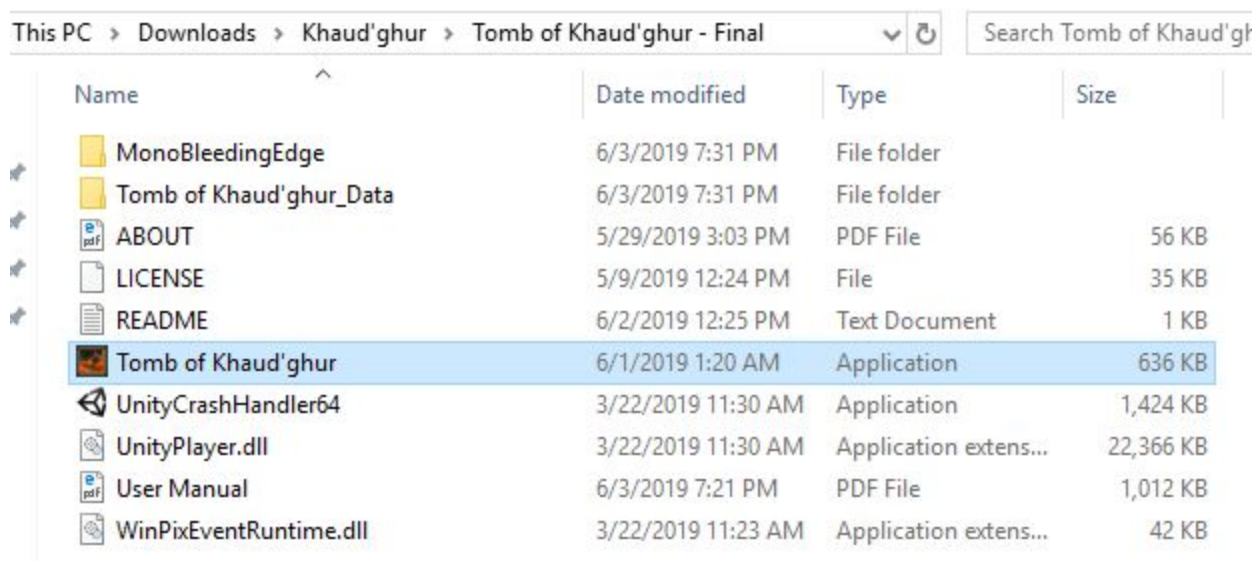

The download should not take very long, once it is downloaded, there will be a zip file of the game in your downloads.

Next, it is recommended that you make your own folder for the zip. Once that is done, simply extract the file in the folder.

Once extracted, a new folder will appear labeled “Tomb of Khau'd'ghur - Final”, simply open the folder and run the application of our game.

It is **RECOMMENDED** for you to read the User Manual first before starting the application of our game!!

From there you're good to go, enjoy our game!

Inform Us: If by any chance you see any game breaking bugs within our game or that our game has been breached by hackers to install malware, please contact us at ljc83@drexel.edu, jc4283@drexel.edu, kz359@drexel.edu, mw3269@drexel.edu, pc662@drexel.edu, or the following number: **1215-888-8888**
